Trinity Construction, Inc.

"Vibrant company that is current on technology and business. Existing customers should look at the site and feel good about dealing with us and giving us new work."

Suzanne Perkins
Sotheby's International Realty

"The Bitterness of poor quality remains long after the sweetness of a low price is forgotten. If you always go for the lowest possible bidder, you'll get the lowest quality. Pay a little more now, save a lot more later on."

Trinity Commercial Construction Inc. was created to help our clients turn their visions into reality, whether it is new construction, additions, or renovation projects. Our commitment to the construction process has earned our firm strong client relationships and the ability to expand our expertise into highly technical projects. We specialize in commercial and industrial design/build projects.

New Construction
Regardless of the method, type, or size of project, Trinity delivers quality work on time and within budget.

You've put a lot of time and effort into your business. Your product is exactly what the market has been begging for, but you can't tell the world about it alone. Don't sweat it. You have the comfort of knowing that Inland Arts & Graphics is in your corner. We not only get the word out, but we work with you to make sure your business is represented as you've always seen it in your mind's eye; not only here and now, but into the future as markets and competition change. We're here to give you the time and effort you deserve to reach our mutual goal - your success. When you look good, we look good; and we love looking good.

Remember when you first imagined your business? Did your dreams live up to reality? Can you picture spreading your footprint over an even larger area, and be confident in your growth standing with your established and new clientele? But that takes time (something you don't always have) and a plan of attack. You want to know that your efforts are effective with your clientele. Good or bad, you need to know. Inland can elicit a customer response for you. Your advertising campaign is a significant part of your budget, and you want to know that your product will be seen. Imagination is the key to getting the results you need. It takes the stuff of dreams and awakens the consumer's mind. Let Inland Design put our imagination and creative power to work for you and your business, and let your grandest dreams become a reality.

In this 21ST CENTURY world, we are over saturated with a constant barrage of advertising from all kinds of media. It just isn't enough to hope that your promotions will bring in customers and clients. You need a definite response rate in return for the money you are spending in advertising. A well designed promotional piece can increase your odds of customer response dramatically.

Is it time for your Annual Infrared Inspection?

SCHEDULE YOUR ANNUAL INFRARED SCAN IN ORDER TO **REDUCE ENERGY, MAINTENANCE AND INSURANCE COSTS**

One simple scan can...

- ✓ Spot overloaded electrical panels, loose connections & damaged wires
- ✓ Reduce insurance costs by fulfilling the requirements of the infrared electrical inspection
- ✓ Identify sources of energy loss
- ✓ Pinpoint the location of water infiltration
- ✓ Predict when your equipment is on the verge of breaking down
- ✓ Decrease potential down time of your production line
- ✓ Locate where invisible, unsafe conditions exist

IN THE RED.

Infrared.

WHAT'S WRONG WITH THESE PICTURES?

PRECISION BUILDING SERVICES INC.

Actually, Nothing.

The Infrared photos are just fine.

However, you won't know what's wrong until we take the picture.

Think about this for a moment...

- How can you tell if your walls are fully insulated?
- How can you find places where water is collecting under your roof?
- How can you tell if the conditions are right for mold to grow inside your walls?
- How would you know if one wire in a cluster of several dozen is damaged?

Finding problems fast & easy.

Precision Building Services visits your site & shoots a THERMOGRAPH IMAGE that will show you precisely...

- Where your structure is wasting energy.
- Where you can repair sections of your roof without replacing it entirely.
- Wherever any kind of invisible unsafe condition exists.

Why gamble? In very short order, our certified infrared thermographers can walk through your place & point out problems and then proceed to fix them. You'll save tremendous amounts of money in energy, disaster, and insurance costs. After all, do you actually think energy costs are going to reduce anytime soon? Not likely. Call Mike Bandza today, and start saving money.

Call now, save money.

YOU WON'T GO IN THE RED WITH OUR INFRARED.

The sonic boom you just heard is ClearSounds Communications *Moving Beyond the Sound Barrier™*.

As the leading manufacturer of state-of-the-art, modern, cool, and inclusive consumer electronics, ClearSounds has developed an award-winning line of products that preserves, protects, and enhances your listening experience without sacrificing style, convenience, or sound quality.

Now everyone can move beyond the sound barrier and experience a world of ClearSounds. No one is left behind, no one is singled-out; hearing sounds clearly is for *everyone*.

One in five teenagers experiences at least slight hearing loss. These numbers are on the rise. Just a decade ago one in seven teenagers experienced at least slight hearing loss.

A study by House Research Institute studied the effects on teen hearing of loud music at a rock concert. 29 students participated. Three students chose to use some form of hearing protection, the rest declined. The sound levels were recorded and found to exceed OSHA's guidelines in less than 30 minutes. Following the concert, over 50% of the teen participants said they did not think they were hearing as well as before the concert, while 25% reported ringing in their ears.

Teens need to understand that even one exposure to extremely loud music can have permanent consequences. And that's why we developed **SmartSounds Earbuds**, to protect your hearing and the hearing of those you care about.
